

Faculty Review of Open eTextbooks

The [California Open Educational Resources Council](http://www.cool4ed.org) has designed and implemented a faculty review process of the free and open etextbooks showcased within the California Open Online Library for Education (www.cool4ed.org). Faculty from the California Community Colleges, the California State University, and the University of California were invited to review the selected free and open etextboks using a rubric. Faculty received a stipend for their efforts and funding was provided by the State of California, the William and Flora Hewlett Foundation, and the Bill and Melinda Gates Foundation.

- My favorite textbook because of the outstanding video lectures and My ExceLab features. I was surprised by the advertisements for Merrill Lynch and textbooks, but that is a small price to pay for this outstanding learning text. It is very well organized, is comprehensive in the coverage of the important material, and is most engaging with the reader. It not only covers financial accounting, but covers managerial accounting as well. This is truly an outstanding resource. I do not know if this textbook includes test banks.
